

ON OPEN BOARDERS – A GLOBALIST PLOT? –

Ask Yourself – Why is the Biden Administration doing nothing about our Open Borders. It is a long story and way beyond Biden's buying votes for future elections!

Submitted by Gail Farrace

(A great deal of this information contains excerpts from The Epoch Times.)

It is now understood that the U.N. and the World Economic Forum are joining together to establish World Control so they (a set of unelected elites) can set controlling policy over all of the world's countries. Open Borders is just part of their policy.

This past fall, The Epoch times interviewed Seamus Bruner, an investigative journalist and author of the book "Controligarchs: Exposing the world Billionaire Class, their Secret Deals, and their Globalist Plot to Dominate." Mr. Bruner's book has exposed the true motivations behind the **Green Agenda**, designed to undermine individual countries, so these elites can control the World order. Just imagine the goal! Why is the U.S. (Biden and his cronies) allowing so many immigrants to crash our borders. We have a robust class of average American citizens, and they are being flooded with immigrants (**outsiders**) from all over the world.

What are these globalist plots? How do they manifest in actual practice, how do they plan to dominate your entire life and what they actually mean for you and your family.

The Globalist Plot Is This:

First - Transfer power away from people and away from countries and more towards global international institutions - controlled by them.

George Soros, Jeff Basos, Bill Gates, Klaus Schwab, Mark Zuckerberg, Henry Kissinger and numerous others were in this group, working on this agenda to transfer power from nations to international institutions, unelected and unaccountable - controlled by the Controligarchs.

We can credit David Rockefeller, one of the godfathers of globalism, with some of the original planning of this new World Order. He called himself part of "the Good Club". To quote him, he said: "Some people believe that I am part of a cabal (a secret club) working against the best interests of the United States, characterizing my family and me as "internationalists" and of conspiring with others around the world to build a more integrated global, political, and economic structure – One World if you will. If that's to form a "World government" - If that's the charge - I stand guilty - and I am proud of it."

So why does the news media ignore so many of these national issues like the open border? Well, Jeff Basos owns the Washington Post, do they cover it to any degree? George Soros, being a proponent of open borders, owns more than 30 mainstream news outlets and he has been giving to numerous non-profit journalism organizations. Of

course, there are many more the media ignores! If they do not publicize it, then we (you) don't know about it - until it is too late.

Back to Mr. Bruner's book - Henry Kissinger worked for the Rockefellers very early on. This explains his connections with the world elites and their thought processes concerning early communications with China under Nixon. Did he perhaps start some of this "world order" with the **Rockefellers** back then? By-the-way, Kissinger was Klaus Schwab's mentor before Schwab came to the United States from Germany. You may have heard the statement "You'll own nothing and you'll be happy" - this is attributed to Schwab in a 2016 video by the World Economic Forum. These elite billionaires have all gotten together many times, having many meetings on world economics - they are plotting out Several World Agendas.

First it was the Agenda 2021, before that it was the New World Order, - that has now changed to the Agenda 2030. Henry Kissinger and George Soros have all talked about setting up this "New World Order". That topic became toxic, Agenda 21 became toxic, alongside these agendas formed in dark rooms that you and I are not allowed to see. They had the new Millennium Order Development Goals. The "new" rebranded term is now the Sustainable Development Goals. They want to dominate every aspect of your life - There is food (they are cutting back on fertilizers, Health, (how long does it take to get a doctor's appointment) , News and Information (look at the disinformation on Covid vaccines), Financial (the UN wants to control the world money supply including changing our U.S. dollar to digital dollars), Transportation (making us all buy electric cars), no gas ranges, - Total control over every facet of your life by 2030. By-the-way, the 2030 Agenda also calls for the U.S. Government to own 30% of all the land in this country by 2030. Talk about controlling the food - if they control the food, they control you. If they control the money, they control you! Remember, you will own nothing, and you will be happy".

In May of 2009, Climate Change was not the big scary thing that we have today. There was a meeting at Rockefeller University and talk about global warming. Barack Obama had just been elected. Some of his biggest benefactors were there. George Soros, Ted Turner, Oprah Winfrey, they all got together to talk about how to use the opportunity of the Obama election. As well as being right in the throes of a financial crisis, all these billionaires got together to talk about what they could do about these world problems and how to pool their (and our) resources to do something about a coming huge climate change - the ozone layer might be depleting and also world over-population. They examined, what do we all care about, so they called themselves "the Good Club". They coined that term for themselves, they wanted to do good, and they came away from the meeting saying over population was the number one issue facing mankind. Since then, the "climate change" narrative has exploded with talk about seizing control of the health care sector, the food sector, the energy sector, and financial sector as a way to stop climate change. The Pandemic came along and turned out to be an even better opportunity to kick off crisis after crisis that we see now. Power Corrupts!

The Rockefeller foundation has helped agriculture in improving seeds and fertilizers for more food to feed the population of the earth. Now, as part of **the global world order plan**, they want to scale back these improvements to help with overpopulation. So, they, the elites, are working on informing the population about family planning, birth control, mass abortion, and sterilization in the form of transgender youth. There was a program

subsidized by Planned Parenthood and the Rockefeller foundation going back into the 1960's where encouraging increased homosexuality is one of the goals in their plan that would bring down the birth rate. They were encouraging abortion in the black communities, again, population control. World overpopulation is vastly disputed. Prior to the open border, in the United States, the birth rate has decreased and has also in numerous foreign countries.

Do you recall in the news earlier last year where they were trying to take the land away from the farmers in the Netherlands? - This **also** appears to be part of the New World Order. In the UN agenda in the Netherlands, (30 years ago) the environmentalists had an agreement with the Dutch government, with the E.U., to protect a certain flora in the country side. Then, 30 years later, the nitrogen levels had to be kept at a certain level, so the farmers could no longer follow the agreement. Then, the government, instead of renegotiating the 30-year-old agreement, decided to kick the farmers off the land since they couldn't maintain the nitrogen levels. The farmers say the government is planning to take their land and convert it into housing to service the huge housing crisis, not because the farmers are having too many children, but because they are being flooded with immigrants into their country. Their plan - to make Holland essentially like the New York of Europe. This seems to be a very interconnected plot and the farmers are fiercely fighting "**the plan**". Along with that, if they remove these farmers with their beef cattle, then they need to replace the protein source with the rise of synthetic meat and insect production, (eat the bugs) - more of their plan. This holistic connected plan seems to have tiny little pieces that fit perfectly together. This is not by accident. It is obvious this is preplanned – **Control the food?** – It sounds crazy but go back to the seventies and look back through reports of the Club of Rome and the World Economic Forum). Our congressmen, while in control, should challenge this plan.

We also need to reevaluate the actions of Henry Kissinger who was an agent of the Rockefellers around the time of their green revolution. In the 1950's, he, along with many other thought leaders, experts and titans of industry made special studies via the Rockefellers Brothers Fund which is one of their various philanthropies. The result of their studies was a book called the **Prospects for America**. It is really a globalist book and a prospect for the world. This became the policy guide for presidents like JFK and Nixon. Moving forward, they now put out new reports through the various organizations they fund like The World Economic Forum, and Club of Rome which really guide these global think-tanks. That becomes policy via the UN. There is where the ideas come before the United Nations – they then make these compacts and agreements that get passed on to the E.U. **and the United States** and various countries eventually sign on and then eventually it trickles down to your local politician level.

The **Prospects for America** book is a huge 600 pages. It talks about opening up of borders. George Soros is heavily invested in removing of borders. Why - because individual countries and strong nations with a strong ethnic identity do not want to be controlled. They like freedom, they like their identity, and so when they flood various countries, that effectively removes power from those countries and more towards international institutions controlled by them. So, think World Economic Forum (WEF). We now have a window into why Biden's administration has gone out of its way to keep the southern border open!

Another very informative source in the Epoch Times for more valuable information about **Globalist Secret Agenda Behind Climate Alarmism, NetZero Policies, Food Shortages | Facts Matter:**

Mr. Marc Morano, the executive director of ClimateDepot.com, as well as the author of Green Fraud: Why the Green New Deal Is Even Worse than You Think.

During an Epoch Times discussion, Marc broke down how Global Elites are manipulating science in order to get the world's people to believe in a "climate emergency", how the NetZero Agenda seeks to implement a controlled Demolition of the current world, and how the "Green Movement" is not about the environment, but rather, it's about implementing global centralized control over all of our lives.
